

Science Home Learning-Autumn term 1

Reception	Make a fruit salad with an adults help, talking about the importance of keeping healthy. Can you draw and label the ingredients of you fruit salad with an adults help?
Year 1	Choose several objects around the house and try to identify which materials the objects are made from.
Year 2	Choose either Charles Macintosh or John Dunlop and create a fact file explaining how their discovery or invention has impacts on our lives today. Or Keep a record of the recycling you do at home, identifying the materials and how you recycle it (ask your teacher for a copy of the 'Recycling Record' sheet).
Year 3	Dinosaur Fossil Research Activity Sheet: Children select a dinosaur and research facts including who found the fossils, where they were found and when.
Year 4	Make a collage of different materials by cutting pictures out of magazines or catalogues. Group the materials into solids, liquids and gases.
